

# Claudio Leite

## Front-end Developer

Merzig, Germany (Relocation / Remote Possible) | [claudio.leite@hotmail.com](mailto:claudio.leite@hotmail.com) | [claudioleite.com](http://claudioleite.com)

Driven Front-end Developer skilled in building responsive, user-centered interfaces using HTML, CSS, JavaScript, and React. Passionate about crafting seamless digital experiences with a solid foundation in UI/UX design. Leveraging a background in sports science, I bring a systematic approach to problem-solving and attention to detail. Actively seeking an entry-level role to contribute to a dynamic team, with flexibility for relocation.

## Skills

- **Languages & Technologies:** HTML, CSS, JavaScript, React, Next.js, Chakra UI, TailwindCSS, Formik
- **Tools & Platforms:** GitHub, Visual Studio Code, Netlify, Git
- **Languages:** Portuguese (Native), English (Fluent), Spanish (Advanced), German (Working Proficiency)

## Projects

### Vans Rental Platform

[Live Demo](#) | [GitHub](#)

*React, React Router, MirageJS, CSS*

- Developed a responsive platform connecting van renters with hosts, creating an intuitive booking experience.
- Built a user-friendly interface enabling renters to browse and book vans easily while providing hosts with a secure dashboard for managing listings and tracking income.
- Used MirageJS to simulate API responses, ensuring realistic testing without needing a live server.

### Portfolio Website

[Live Demo](#) | [GitHub](#)

*React, Next.js*

- Designed and developed a personal portfolio website to showcase projects, with a focus on smooth, interactive navigation and mobile responsiveness.
- Implemented animations and scroll effects to improve user engagement and highlight project showcases.

### Harmony Hub – E-Commerce Music Store

[Live Demo](#) | [GitHub](#)

*React, JavaScript, Chakra UI*

- Created a comprehensive e-commerce platform with a dynamic product carousel and simplified checkout process.
- Optimized state management to deliver a consistent, smooth shopping experience across devices.

### PantryPal - Smart Kitchen Inventory App

[Live Demo](#) | [GitHub](#)

*React, Next.js*

- Designed an app for tracking pantry items and suggesting recipes using a public recipe API.
- Created a responsive user interface to provide a seamless experience across devices.

### The Little Lemon Restaurant Web App

[Live Demo](#) | [GitHub](#)

*React, Chakra UI, JavaScript*

- Built a responsive web app for a restaurant, including table reservations and weekly specials.
- Focused on creating a dynamic user experience with a responsive navbar and smooth navigation.

## Work Experience

---

### Wish-Lift Online Coaching

Dec. 2019 – Present

*Founder and Coach*

- Launched and scaled an online fitness coaching business, leveraging web development and SEO strategies to attract and retain clients.
- Designed and optimized the website, ensuring intuitive navigation and performance to improve user engagement and client acquisition.
- Utilized analytical skills to track client progress, enhancing user satisfaction through personalized program adjustments.

### PureGym

Mar. 2015 – Dec. 2019

*Personal Trainer*

*London, United Kingdom*

- Delivered personalized fitness coaching, achieving a 25% increase in client retention through progress tracking and customer relationship management.
- Developed strong communication and problem-solving skills, instrumental in building client trust and adaptability in team environments.

## Certifications & Courses

---

### Scrimba Frontend Developer Career Path

Jun. – Oct. 2024

*Scrimba / Mozilla MDN*

- Completed 4 months of modern web development training, covering React, JavaScript, HTML5, CSS3, and Git through hands-on projects.
- Built a robust portfolio with hands-on projects in responsive design, semantic HTML, accessibility, and API integration.

### Meta Front-End Developer Professional Certificate

Jan. – May 2024

*Coursera*

- Created responsive websites using HTML5, CSS, and JavaScript for interactive web experiences.
- Developed skills in React and Bootstrap for building modern web applications.
- Managed projects with GitHub and version control, collaborating in team environments.
- Acquired UI/UX design skills, including working with Figma for page layouts.
- Completed 9 projects, culminating in a Capstone project, where I built a front-end application.

## Education

---

### Universidade da Beira Interior

Oct. 2009 – Jul. 2013

*Bachelor of Science (BSc) in Sports Science*

*Covilha, Portugal*

- Acquired project management skills, supporting effective timeline management and teamwork in development projects.
- Developed strong analytical and problem-solving abilities, essential for creating and testing user-focused web applications.

## Transferable Skills

- 
- **Analytical Thinking:** Effective in debugging and optimizing code.
  - **Attention to Detail:** Ensures high code quality and user-focused designs.
  - **Problem-solving:** Skilled in addressing real-world challenges and technical issues.
  - **Communication:** Strong ability to collaborate effectively in diverse teams.
