Claudio Leite

Front-end Developer

Merzig, Germany (Relocation / Remote Possible) | claudio.leite@hotmail.com | claudioleite.com

Frontend Developer with a strong **React**, **JavaScript**, **HTML**, and **CSS foundation**. I'm passionate about creating responsive and user-friendly interfaces that enhance user experiences. My background in sports science has provided me with a systematic approach to problem-solving and attention to detail. Eager to contribute to a dynamic team, I am actively seeking my first professional role in frontend development and am open to relocation for the right opportunity.

Skills

- **Languages & Technologies**: HTML, CSS, JavaScript, React, Chakra UI, Formik, Next.js, Tailwind CSS
- **Tools & Platforms**: GitHub, Visual Studio Code, Netlify, Git
- **Languages**: Portuguese (Native), English (Fluent), Spanish (Advanced), German (Working Proficiency)

Projects

Portfolio Website   **Live Demo | GitHub**
React, Next.js

- Designed and built a personal portfolio website to showcase my frontend projects and skills.
- Focused on responsive design, accessibility, and user engagement through smooth scrolling and interactive elements.

Harmony Hub – E-Commerce Music Store   **Live Demo | GitHub**
React, JavaScript, Chakra UI

- Built a fully-featured e-commerce platform for music products with a dynamic product carousel and intuitive checkout process.
- Overcame challenges in state management to ensure a smooth shopping experience across devices.

PantryPal - Smart Kitchen Inventory App   **Live Demo | GitHub**
React, Next.js

- Developed a smart inventory management app that helps users track pantry items and suggests recipes based on available ingredients.
- Integrated a public recipe API to offer meal suggestions.
- Ensured a clean, responsive user interface for a seamless experience across devices.

The Little Lemon Restaurant Web App   **Live Demo | GitHub**
React, Chakra UI, JavaScript

- Developed a responsive web app for a restaurant, featuring table reservations and weekly specials.
- Created a dynamic user experience by designing a responsive navbar and ensuring smooth navigation between views.

Work Experience

Wish-Lift Online Coaching **Dec. 2019 – Dec. 2019**
Founder and Coach

- Launched and scaled an online fitness coaching business, leveraging web development and SEO strategies.
- Designed and managed the business website, focusing on usability and performance optimisation.
- Applied analytical skills to track client progress and optimise outcomes.

PureGym **Mar. 2015 – Dec. 2019**
Personal Trainer *London, United Kingdom*

- Delivered personalised training sessions and implemented progress tracking systems, increasing client satisfaction and retention by 25%.
- Developed communication and problem-solving skills that have been invaluable in my transition to web development.

Certifications & Courses

Scrimba Frontend Developer Career Path **May – Present**
Scrimba / Mozilla MDN

- Completed an 80-hour comprehensive course focused on modern web development, including **React**, **JavaScript**, **HTML5**, **CSS3**, and **Git**.
- Built a portfolio with over a dozen hands-on projects, applying skills in **responsive design**, **semantic HTML**, **accessibility**, and **API integration**.
- Developed strong foundational knowledge of industry best practices and tools, preparing for a professional frontend developer role.

Meta Front-End Developer Professional Certificate **Jan. – May 2024**
Coursera

- Created responsive websites using HTML5, CSS, and JavaScript for interactive web experiences.
- Developed skills in React and Bootstrap for building modern web applications.
- Managed projects with GitHub and version control, collaborating in team environments.
- Acquired UI/UX design skills, including working with Figma for page layouts.
- Completed 9 projects, culminating in a Capstone project, where I built a front-end application.

Education

Universidade da Beira Interior **Oct. 2009 – Jul. 2013**
Bachelor of Science (BSc) in Sports Science *Covilha, Portugal*

- Acquired project management skills, facilitating effective timeline management and coordination in development projects.
- Cultivated a sense of discipline and teamwork, essential for collaboration and delivering high-quality user experiences.

Transferable Skills

- **Analytical Thinking**: Leveraged in debugging and code optimisation.
- **Detail-oriented**: Ensuring high code quality and user-centric designs.
- **Problem-solving**: Experienced in resolving real-world challenges and software issues.
- **Effective Communication**: Proven ability to collaborate in diverse teams.
